University Computing, 1988, **10**, 230.

Subject index

Ada in parallel processing — use in an undergraduate course, 30
Assess Conference, a report, 170

Book reviews, 40, 99, 162, 205

CAL/FE 5–6 September 1987, Loughborough University, 61
Clustan — has *SPSSx* made it redundant? 27
Computational mechanics and the engineer: finite elements, 126
Computer Board news, 58, 121, 172, 228
Computer graphics standards in the university community; the Loughborough CGM project, 158
Computing Science and Mathematics — the evolving relationship, 142
Computer Science news, 57, 178
Computer Service news, 57, 115, 173, 227
Conference of Professors of Computing Science, 113

DBMS — as a tool for research, 71

Fibre optic communication systems — a comparative study of systems with differing topological attributes, 64

Getting the Message Across: ISG Workshop, Heriot-Watt University, 6–8 April 1988, 200
Getting women into computing, 154

Hull Domesday Textbase, 1

Introductory robotics for Computer Science students, 194

ISG Annual Report 1987/8, 221
ISG news, 114, 178, 226
ISG/IUNC Workshop: Network development for the user, City University, Spring 1987, 172
ISG Workshop, 200
IUCC Chairman's Report, 219
IUCC Management Conference, Loughborough, March 1988, 169
IUCC news, 59
IUNC Annual Report 1987/8, 224
IUNC news, 60, 114
IUSC Annual Report, 222
IUSC news, 121
IUSC Workshop: Molecular Biology, Cambridge, January 1988, 110

JANET — access to, 149
JNT and network executive news, 117

Microcomputer purchasing decisions in British universities, 189
Micros in management: CTI project, 16
Molecular Biology Software: IUSC Workshop, Cambridge, January 1988, 110

NCUF and ITUSA news, 120, 226
NCUF news, 60, 120, 177
Network development-services for the user: ISG/IUNC Workshop, City University, Spring 1987, 172
Network news, 58, 175

Polytechnics and Colleges Computer Committee, 179
Program design language for WIMP environments, 23

RARE European Networkshop, Les Diablerets, May 1988, 214
Ring Networks — Simulation techniques in the evaluation of, 34

SERC news, 122, 173
Simulation techniques for use in the evaluation of Ring Networks, 34
Software maintenance: a key area for research, 184
Software reviews, 40, 212
SPSSx — has it made *Clustan* redundant? 27
Student access to computer facilities — the way forward? 86

Telecommunications in High Education — a seminar organized by the Conference of University Administrators, Durham, December 1987, 112
Training first year undergraduates to produce quality software, 9
Tsarina war-gaming program — graphical pre- and post-processing interfaces, 92

UMRCC — A personal impression of the history of a national centre, 13
University Computing: Annual Report of the Editorial Board, 224
User interface design: differing requirements of novice, occasional, and expert users, 80

WIMP environments — a program design language for, 23

University Computing, 1988, **10**, 230.
